

Gulf Crown MP

Multi-purpose Lithium Grease

Product Description

Gulf Grown MP series greases are multipurpose high quality lithium soap based grease for use in a wide range of heavy duty on-road trucking and automotive applications. These are manufactured from high quality solvent refined base oils and performance additives to provide good structural stability, resistance to water washout and effective protection from wear and corrosion. Gulf Crown MP greases are available in NLGI 1, 2 and 3.

Features & Benefits

- Improved mechanical stability and resistance to softening ensures long lubricant life and prevents leak out of bearings
- Good corrosion protection and resistance to water washout resulting in improved component protection and equipment life
- Good low temperature fluidity/ pumpability even in cold weather making it ideal for use in centralised lubrication systems on vehicles as well as industrial applications
- High drop point ensures extended operating range of up to 120°C.

Applications

- Wheel bearing and chassis component lubrication applications in heavy duty trucking and automotive vehicles
- General lubrication of axles, ball joints, universal joints, power take-offs, king pins, bushings and disc brakes
- Other automotive and industrial applications where calcium and sodium based grease are not suitable for use.

Specifications, Approvals & Typical Properties

Meets the following Specifications		NLGI 1	NLGI 2	NLGI 3	
ASTM D4950 GB-LA		Х	х	х	
Typical Properties					
Test Parameters	Test Method	1	Typical Values		
Colour	Visual	Black	Black	Black	
Texture		Smooth	Smooth	Smooth	
Base Oil viscosity @ 40 deg C, cSt	D 445	102	100	98	
Consistency, worked 60X	D 217	325	280	235	
Consistency, worked 100 000X (change)	D 217	15	20	26	
Dropping Point, °C	D 2265	186	192	194	
Oil Separation, mass %	D 1742	7	3	1	
Oxidation Stability (100 hrs)	D 942	0.25	0.25	0.25	
Copper Corrosion	D 4048	1b	1b	1b	
Rust Protection	D 1743	Pass	Pass	Pass
